EXPERIENCE

WEB DEV INTERN | CABLE BOX OFFICE SHOWS AND SYSTEMS CORPORATION | PASIG CITY

JUNE 2024 – AUGUST 2024

I developed an online timekeeping system for Cable BOSS. This system can track the employee's exact location and requires a photo at the time in and time out. The system can also generate reports for the HR Department. I also computerized their job candidate application. This automated method may assist HR in sorting all applicant applications and generating PDFs for easy reading.

TECHNICIAN | LAPTER (LAPTOP AND COMPUTER REPAIR) | CALOOCAN CITY

2020 – PRESENT

I conducted diagnostics and troubleshooting to assess equipment performance, aiming to enhance reliability. Additionally, I configured equipment for testing to validate functionality and performance. I was responsible for developing maintenance schedules and supervising repair tasks to maintain productivity.

SKILLS

- Web Development: HTML, CSS, JS, PHP and MySQL
 - Windows Application Development: C# and VB.Net
 - IoT Development: C++
 - Version Control: GitHub and Bitbucket
-

EDUCATION

- University of Caloocan City, Caloocan City, 2021 – 2025
Bachelor of Science in Information Technology (BSIT)
- Systems Plus Computer College (SPCC), Caloocan City, 2019– 2021
Information Communication Technology (ICT)
